**Status:** Permanent Visa

# As an Interior designer

I do plans, designs, details and supervises the construction of commercial, industrial, retail and residential building interiors to produce an environment tailored to a purpose, with particular emphasis on space creation, space planning, and factors that enhance living and working environments.

# As a Consultant

As a very experienced consulting with architects, designers and their clients to develop creative design solutions and an individual who becomes an integrated and trusted part of the design process I played an important role in design team.

In showrooms, service is a major part of the Onsite experience. This role requires a person who has a positive 'can do' attitude, with the ability to be motivated as part of a team, but to also work autonomously which I have done for more than 8 years.

# In the Showroom

In Karno's showroom my Key Responsibilities were:

- Managing and maintaining close relationships with an existing portfolio of clients
- Developing new relationships and opportunities including contributing to the overarching marketing strategy
- Educating the client on product installation and ongoing care
- Provide outstanding service and support and project managing all orders through to completion
- Maintaining showroom displays, samples and having a front of house presence
- Collaborative development of the Onsite Range
- Appointments both in the studio and in client office spaces
- Ensure the showroom is visually appealing and products are presented in an organized and attractive manner.
- Strong sales orientation and a track record of meeting or exceeding sales targets.
- Self-motivated and able to work independently, as well as part of a team.
- Knowledge of furniture construction, materials, and finishes.
- Familiarity with the latest interior design trends and a passion for staying updated in the field
- Utilising exceptional design skills through all project stages and delivery
- Assist with maintaining existing and developing new client relationships
- Work with external consultants, suppliers, and contractors to execute projects
